

# POWER SUPPLIES AND ACCESSORIES

## TIMER

This programmable digital timer allows precise control of electrical devices with up to 12 On/Off cycles per day or 84 cycles per week. Designed for reliability, it features battery backup, a manual override, and an easy-to-read LCD display. Ideal for automating lighting, appliances, and other electrical systems.

### Features:

- **Versatile Scheduling:** Supports up to 12 On/Off switches per day or 84 switches per week.
- **Custom Programming:** Allows scheduling for individual days or 12 different weekday groups.
- **Precision Timing:** Minimum switching period of one minute for accurate control.
- **Daylight Saving Adjustment:** Easily advances the clock to accommodate daylight saving changes.
- **User-Friendly Display:** Features a clear LCD screen for easy operation.
- **Manual Override:** Allows immediate manual control without disrupting the programmed schedule.
- **Battery Backup:** Supports 2 x AA batteries, retaining presets for up to 270 hours in case of power failure.
- **Long Lifespan:** Designed for 20,000 hours of nominal use, ensuring durability and reliability.

Code	Input/Output Voltage	Max Power Rating	Operating Temperature	Operating Period	Warranty
